

SAFETY DATA SHEET

Super Rainbow® Plant Food Tobacco 4-8-12

Section 1. Identification

GHS product identifier

: Super Rainbow® Plant Food Tobacco 4-8-12

Other means of identification

Froduct code(s): 1000007; 1000008

: Granular solid. **Product type**

Relevant identified uses of the substance or mixture and uses advised against

| Identified uses | |
|----------------------|--------|
| Fertilizer. | |
| | |
| Uses advised against | Reason |

: Rainbow Fertilizer LLC (a Division of Timac Agro USA) Supplier's details

> 1011 Oak Avenue Americus, GA 31709

Company phone number:

1-800-403-2861 (Customer Service)

www.rainbowplantfoodproducts.com

Emergency telephone number (with hours of operation)

: VSA POISON CONTROL CENTER (24h/7d)

1-800-222-1222

Section 2. Hazards identification

OSHA/HCS status

: This material is considered hazardous by the OSHA Hazard Communication Standard

(29 CFR 1910.1200).

Classification of the substance or mixture : SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2B

GHS label elements

Hazard pictograms Not Applicable.

> No Aplicable. Non applicable.

Signal word : Warning

Hazard statements : Causes eye irritation.

Precautionary statements

General Read label before use. Keep out of reach of children. If medical advice is needed, have

product container or label at hand.

Prevention : Wear eye or face protection. Wash hands and face before breaks and immediately after

handling the product.

Date of issue/Date of revision : 2/17/2022 : 5/6/2019 1/12 Version :1.8 Date of previous issue

Section 2. Hazards identification

: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if Response

present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

Storage Not applicable. **Disposal** : Not applicable.

Hazards not otherwise classified

Handling and/or processing of this material may generate a dust which can cause mechanical irritation of the eyes, skin, nose and throat.

Section 3. Composition/information on ingredients

: Multi-constituent substance Substance/mixture

CAS number/other identifiers

CAS number : Not available.

| Ingredient name | % | CAS number |
|------------------------------------|---------|------------|
| Potassium magnesium sulfate | 36 | 14977-37-8 |
| Calcium sulfate, dihydrate | 18 - 19 | 10101-41-4 |
| Limestone | 11 | 1317-65-3 |
| Potassium nitrate | 10 | 7757-79-1 |
| Ammonium dihydrogen orthophosphate | 7 - 13 | 7722-76-1 |
| Ammonium nitrate | 3 - 4 | 6484-52-2 |
| Ammonium sulfate | 0 - 7 | 7783-20-2 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Eye contact : Causes eye irritation. Immediately flush eyes with plenty of water, occasionally lifting the

upper and lower eyelids. Check for and remove any contact lenses. If irritation persists,

get medical attention.

Inhalation : Non-hazardous in case of inhalation. No known significant effects or critical hazards.

Get medical attention if symptoms occur.

In a fire, hazardous decomposition products may be produced. If any ill effects are felt, proceed as follows. If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. For additional advice call the medical emergency number on this SDS or your

poison center or doctor.

Skin contact : No known effect after skin contact. Rinse with water for a few minutes.

Ingestion may cause gastrointestinal irritation and diarrhea. Wash out mouth with water. Ingestion Never give anything by mouth to an unconscious person. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. For additional advice call the medical emergency

number on this SDS or your poison center or doctor.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact : Causes eye irritation.

: Exposure to airborne concentrations above statutory or recommended exposure limits Inhalation

may cause irritation of the nose, throat and lungs.

Skin contact : No known significant effects or critical hazards.

: May cause irritation of the digestive tract with accompanying nausea, vomiting and Ingestion

diarrhea.

Over-exposure signs/symptoms

: 2/17/2022 2/12 Date of issue/Date of revision : 5/6/2019 Version : 1.8 Date of previous issue

Section 4. First aid measures

Eye contact: Adverse symptoms may include the following:

irritation watering redness

Inhalation : Adverse symptoms may include the following:

respiratory tract irritation

coughing

Skin contact : No specific data.

Ingestion : No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician

: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Specific treatments
Protection of first-aiders

: No specific treatment. Treat symptomatically.

: No action shall be taken involving any personal risk or without suitable training. Depending on the situation, the rescuer should wear an appropriate mask, gloves, protective clothing and a respirator or self-contained breathing apparatus. Mouth-to-mouth resuscitation of oral exposure patients is not recommended. First-aiders with

contaminated clothing should be properly decontaminated.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media

: Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media

: None known.

sulfur oxides

Specific hazards arising from the chemical

: No specific fire or explosion hazard. The substance will not burn. Undergoes thermal decomposition at elevated temperatures to release toxic and flammable gases.

Hazardous thermal decomposition products

 Decomposition products may include the following materials: nitrogen oxides

Special protective actions for fire-fighters

: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable

Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

: Contain and collect the water used to fight the fire for later treatment and disposal.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Remark

: No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Avoid breathing dust. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency responders

: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Will dissolve and disperse in water. Reclaiming material may not be possible. If possible, recover spilled product and place in suitable containers for recycle, reuse, or disposal. Product will promote algae growth and may degrade water quality and taste. Notify downstream water users. Inform the relevant authorities if the product has caused adverse impacts (sewers, waterways, soil or air).

 Date of issue/Date of revision
 : 2/17/2022
 Date of previous issue
 : 5/6/2019
 Version
 : 1.8
 3/12

Section 6. Accidental release measures

Methods and materials for containment and cleaning up

Small spill

: Move containers from spill area. Avoid dust generation. Recycle, if possible.

or

Place spilled material in a designated, labeled waste container. Dispose of via a

licensed waste disposal contractor.

Large spill

: Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Avoid creating dusty conditions and prevent

wind dispersal. Recycle to process, if possible.

or

Place spilled material in an appropriate container for disposal. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and

Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

Protective measures

: Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing dust.

Advice on general occupational hygiene

: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. May form steep piles that can collapse without warning when stored in bulk. Avoid forming steep slopes when removing product. Ensure that bulk bags or smaller packaged products stored in tiers are stacked, racked, blocked, interlocked, or otherwise secured to prevent sliding, rolling, or collapse. Use caution when opening truck or railcar doors as product may have shifted during transport.

Must be stored in a dry location. Absorbs moisture on long-term storage under high humidity conditions. Store away from incompatible materials (see Section 10). When product is stored in sealable containers, keep container tightly closed and sealed until ready for use. Sealable containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Refer to NFPA 400 Hazardous Materials Code for further information on the safe storage and handling of hazardous materials.

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
|------------------------------------|---|
| Potassium magnesium sulfate | OSHA (United States): |
| | Particulates not otherwise regulated (PNOR) |
| | TWA (8 hours), Total dust: 15 mg/m³; |
| | Respirable fraction: 5 mg/m³. |
| Calcium sulfate, dihydrate | ACGIH TLV (United States, 4/2014). TWA: 10 mg/m³ 8 hours. Form: Inhalable |
| | fraction |
| Limestone | OSHA (United States): |
| | Particulates not otherwise regulated (PNOR) |
| | TWA (8 hours), Total dust: 15 mg/m³; |
| | Respirable fraction: 5 mg/m³. |
| Potassium nitrate | OSHA (United States): |
| | Particulates not otherwise regulated (PNOR) |
| | TWA (8 hours), Total dust: 15 mg/m³; |
| | Respirable fraction: 5 mg/m³. |
| Ammonium dihydrogen orthophosphate | OSHA (United States): |
| | Particulates not otherwise regulated (PNOR) |
| | TWA (8 hours), Total dust: 15 mg/m³; |
| | Respirable fraction: 5 mg/m³. |

Date of issue/Date of revision : 2/17/2022 Date of previous issue : 5/6/2019 Version : 1.8 4/12

Section 8. Exposure controls/personal protection

Ammonium nitrate

OSHA (United States):
Particulates not otherwise regulated (PNOR)
TWA (8 hours), Total dust: 15 mg/m³;
Respirable fraction: 5 mg/m³.

Ammonium sulfate

OSHA (United States):
Particulates not otherwise regulated (PNOR)
TWA (8 hours), Total dust: 15 mg/m³;
Respirable fraction: 5 mg/m³.

Appropriate engineering controls

Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor
or mist, use process enclosures, local exhaust ventilation or other engineering controls
to keep worker exposure to airborne contaminants below any recommended or statutory
limits

Environmental exposure controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before

eating, smoking and using the lavatory and at the end of the working period. Wash

contaminated clothing before reusing.

Eye/face protection : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists,

gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. If operating conditions cause high dust concentrations to be produced, use dust goggles.

Skin protection

Respiratory protection

Hand protection: The personal protective equipment required varies, depending upon your risk

assessment. No special protection is required. For prolonged or repeated handling, use

the following type of gloves: leather work gloves

Body protection : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling

this product. Cotton or cotton/synthetic overalls or coveralls are normally suitable.

Other skin protection : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a

specialist before handling this product. No special measures are typically indicated.

: A respirator is not needed under normal and intended conditions of product use. Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Contact your personal protective equipment manufacturer to verify the compatibility of the equipment for the intended purpose. For U.S. work sites where respiratory protection is required, ensure that a respiratory protection program meeting 29 CFR 1910.134 requirements is in place.

Section 9. Physical and chemical properties

Appearance

Physical state : Granular solid.

Color : Gray.

Odor : Odorless.

Odor threshold : Not applicable.

pH : 6 [Conc. (% w/w): 10%]

Melting point: Not available.Boiling point: Decomposes.

Flash point : [Product does not sustain combustion.]

Evaporation rate: Not applicable.

Flammability (solid, gas) : Not applicable. The substance will not burn. Undergoes thermal decomposition at

elevated temperatures to release toxic and flammable gases.

Date of issue/Date of revision: 2/17/2022Date of previous issue: 5/6/2019Version: 1.85/12

Section 9. Physical and chemical properties

Lower and upper explosive

(flammable) limits

: Not applicable.

: Not applicable. Vapor pressure Vapor density : Not applicable. **Relative density** : Not available.

Solubility : Easily soluble in the following materials: hot water.

Soluble in the following materials: cold water.

Solubility in water Partition coefficient: n: Water soluble.

octanol/water

: Not available.

Auto-ignition temperature Decomposition temperature

: Not applicable. : Not available. : Not applicable.

Aerosol product

Viscosity

Section 10. Stability and reactivity

: No specific test data related to reactivity available for this product or its ingredients. Reactivity

Chemical stability : The product is stable.

Possibility of hazardous reactions

: Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid : Absorbs moisture on long-term storage under high humidity conditions. Store in a well-

ventilated, dry place. Protect from moisture.

Incompatible materials : Incompatible with halogens. Incompatible with copper alloys. Contact your sales

representative or a metallurgical specialist to ensure compatability with your equipment.

Hazardous decomposition products

: Under normal conditions of storage and use, hazardous decomposition products should

not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|-----------------------------|---------------------------------|---------------|-------------|----------|
| Ammonium sulfate | LD50 Oral | Mouse - Male, | 3040 mg/kg | - |
| | | Female | | |
| | LD50 Oral | Rat | 2840 mg/kg | - |
| | LD50 Oral | Rat - Male, | >2000 mg/kg | = |
| | | Female | | |
| Potassium magnesium sulfate | LD50 Oral | Rat | 3 g/kg | - |
| Calcium sulfate, dihydrate | LC50 Inhalation Dusts and mists | Rat - Male, | >3.26 mg/l | 4 hours |
| | | Female | CaSO4.2H2O | |
| | LD50 Oral | Rat - Male, | >1581 mg/kg | - |
| | | Female | | |
| Ammonium dihydrogen | LD50 Oral | Rat - Male, | >2000 mg/kg | - |
| orthophosphate | | Female | | |

Teratogenicity

Date of issue/Date of revision : 2/17/2022 Date of previous issue : 5/6/2019 Version : 1.8 7/12

Super Rainbow® Plant Food Tobacco 4-8-12

Section 11. Toxicological information

| Product/ingredient name | Result | Species | Dose | Exposure |
|-------------------------|-----------------|-----------------------|------------|----------|
| Ammonium sulfate | Negative - Oral | Rat - Male, Female | 1500 mg/kg | - |

Conclusion/Summary: No known significant effects or critical hazards.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely

routes of exposure

: Routes of entry anticipated: Inhalation.

Potential acute health effects

Eye contact : Causes eye irritation.

Inhalation : Exposure to airborne concentrations above statutory or recommended exposure limits

may cause irritation of the nose, throat and lungs.

Skin contact: No known significant effects or critical hazards.

Ingestion : May cause irritation of the digestive tract with accompanying nausea, vomiting and

diarrhea.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact: Adverse symptoms may include the following:

irritation watering redness

Inhalation : Adverse symptoms may include the following:

respiratory tract irritation

coughing

Skin contact: No specific data.Ingestion: No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate

effects

: May interfere with the oxygen carrying capacity of the blood if ingested in large quantities or over a prolonged period of time. Persons with anemia, bowel diseases, or infants, are

more likely to develop effects. Over-exposure by ingestion is unlikely under normal

working conditions.

Potential delayed effects : Not available.

Long term exposure

Potential immediate

: Not available.

effects

Potential delayed effects : Potential for nitrosamine formation if ingested. Do not ingest.

Potential chronic health effects

| Product/ingredient name | Result | Species | Dose | Exposure |
|-------------------------|--------------------|-----------------------|-----------|------------------------------|
| Ammonium sulfate | Chronic NOAEL Oral | Rat - Male, Female | 0 0 | 52 weeks; 7 days per week |
| Ammonium nitrate | Chronic NOAEL Oral | Rat - Male, Female | 256 mg/kg | - - |

Conclusion/Summary: No known significant effects or critical hazards.

General: No known significant effects or critical hazards.

Carcinogenicity: Potential for nitrosamine formation if ingested. Do not ingest.

Mutagenicity : No known significant effects or critical hazards.Teratogenicity : No known significant effects or critical hazards.

| Inhalation (dusts and mists) | 15.79 mg/l | |

Section 12. Ecological information

Toxicity

| Product/ingredient name | Result | Species | Exposure |
|----------------------------|---------------------------------------|--|----------|
| Ammonium sulfate | Acute LC50 2.6 mg/l Fresh water | Crustaceans - Ceriodaphnia dubia - Young | 48 hours |
| | Acute LC50 14000 μg/l Fresh water | Daphnia - Daphnia magna - Young | 48 hours |
| | Acute LC50 53 mg/l | Fish - Oncorhynchus mykis | 96 hours |
| Calcium sulfate, dihydrate | EC50 >79 mg/l | Algae | 72 hours |
| _ | EC50 >79 mg/l | Daphnia | 48 hours |
| | EC50 >790 mg/l | Micro-organism | 3 hours |
| | Acute LC50 >1970 mg/l | Fish | 96 hours |
| Ammonium nitrate | Chronic NOEC 6 to 12 mg/l Fresh water | Crustaceans - Cladocera | 21 days |

Conclusion/Summary

: Practically non-toxic to aquatic organisms.

Persistence and degradability

Not available.

Bioaccumulative potential

Not available.

Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

Coefficient (Koc)
Mobility

: Not available.

Other adverse effects

: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste packaging should be recycled. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Notice to reader

The information and recommendations contained in this Safety Data Sheet ("SDS") relate only to the specific material referred to herein (the "Material") and do not relate to the use of such Material in combination with any other material or process. The information and recommendations contained herein are believed to be current and correct as of the date of this SDS. HOWEVER, THE INFORMATION AND RECOMMENDATIONS ARE PRESENTED WITHOUT WARRANTY, REPRESENTATION OR LICENSE OF ANY KIND, EXPRESS OR IMPLIED, WITH RESPECT TO THEIR ACCURACY, CORRECTNESS OR COMPLETENESS, AND THE SELLER, SUPPLIER AND MANUFACTURER OF THE MATERIAL AND THEIR RESPECTIVE AFFILIATES (COLLECTIVELY, THE "SUPPLIER") DISCLAIM ALL LIABILITY FOR RELIANCE ON SUCH INFORMATION AND RECOMMENDATIONS. This SDS is not a guarantee of safety. A buyer or user of the Material (a "Recipient") is responsible for ensuring that it has all current information necessary to safely use the Material for its specific purpose. FURTHERMORE. THE RECIPIENT ASSUMES ALL RISK IN CONNECTION WITH THE USE OF THE MATERIAL. THE RECIPIENT ASSUMES ALL RESPONSIBILITY FOR ENSURING THE MATERIAL IS USED IN A SAFE MANNER IN COMPLIANCE WITH APPLICABLE ENVIRONMENTAL, HEALTH, SAFETY AND SECURITY LAWS, POLICIES AND GUIDELINES. THE SUPPLIER DOES NOT WARRANT THE MERCHANTABILITY OF THE MATERIAL OR THE FITNESS OF THE MATERIAL FOR ANY PARTICULAR USE AND ASSUMES NO RESPONSIBILITY FOR INJURY OR DAMAGE CAUSED DIRECTLY OR INDIRECTLY BY OR RELATED TO THE **USE OF THE MATERIAL.**
