

# SAFETY DATA SHEET

## Super Rainbow® Plant Food 17-8-0-18S 2Zn, Americus

### Section 1. Identification

**Product identifier** : Super Rainbow® Plant Food 17-8-0-18S 2Zn, Americus  
**Other means of identification** : Product code: I000148  
**Product type** : Granular solid.

#### Relevant identified uses of the substance or mixture and uses advised against

##### Identified uses

Fertilizer.

**Supplier's details** : Rainbow Fertilizer LLC ( a Division of Timac Agro USA)  
1011 Oak Avenue  
Americus, GA 31709  
  
Company phone number:  
1-800-403-2861 (Customer Service)  
  
www.rainbowplantfoodproducts.com

**Emergency telephone number (with hours of operation)** : USA POISON CONTROL CENTER (24h/7d)  
1-800-222-1222

### Section 2. Hazard identification

**Classification of the substance or mixture** : EYE IRRITATION - Category 2B  
**OSHA/HCS status** : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

#### GHS label elements

**Hazard pictograms** : **Not Applicable.**  
**No Aplicable.**  
**Non applicable.**

**Signal word** : Warning  
**Hazard statements** : Causes eye irritation.

#### Precautionary statements

**General** : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.  
**Prevention** : Wash hands thoroughly after handling. Wear eye or face protection.

## Section 2. Hazard identification

<b>Response</b>	: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
<b>Storage</b>	: Not applicable.
<b>Disposal</b>	: Dispose of contents and container in accordance with all local, regional, national and international regulations.
<b>Supplemental label elements</b>	: None known.
<b>Other hazards which do not result in classification</b>	: Handling and/or processing of this material may generate a dust which can cause mechanical irritation of the eyes, skin, nose and throat.

## Section 3. Composition/information on ingredients

**Substance/mixture** : Multi-constituent substance

Ingredient name	% (w/w)	CAS number
Ammonium sulfate	63 - 74	7783-20-2
Ammonium dihydrogen orthophosphate	14	7722-76-1
Calcium sulfate, dihydrate	5 - 6	10101-41-4
Zinc oxide	1 - 3	1314-13-2
Ammonium nitrate	2	6484-52-2
Zinc bis(dihydrogen phosphate)	0 - 2.5	13598-37-3
Zinc sulfate	0 - 2	7733-02-0

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

**There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.**

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First-aid measures

### Description of necessary first aid measures

<b>Eye contact</b>	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. If irritation persists, get medical attention.
<b>Inhalation</b>	: May cause irritation due to mechanical action. Remove person to fresh air. Seek medical attention for any signs of wheezing and/or breathing difficulties. For additional advice call the medical emergency number on this SDS or your poison center or medical provider.
<b>Skin contact</b>	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.
<b>Ingestion</b>	: May be irritating to mouth, throat and stomach. Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. For additional advice call the medical emergency number on this SDS or your poison center or doctor.

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

<b>Eye contact</b>	: Causes eye irritation.
<b>Inhalation</b>	: Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.
<b>Skin contact</b>	: Inorganic salt. Prolonged or repeated exposure may dry the skin, causing irritation.
<b>Ingestion</b>	: May cause irritation of the digestive tract with accompanying nausea, vomiting and diarrhea.

#### Over-exposure signs/symptoms

## Section 4. First-aid measures

- Eye contact** : Adverse symptoms may include the following:  
irritation  
watering  
redness
- Inhalation** : Adverse symptoms may include the following:  
respiratory tract irritation  
coughing
- Skin contact** : No specific data.
- Ingestion** : No specific data. Adverse symptoms may include the following:  
nausea or vomiting  
diarrhea

### Indication of immediate medical attention and special treatment needed, if necessary

- Notes to physician** :  Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
- Specific treatments** : No specific treatment.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

### Extinguishing media

- Suitable extinguishing media** : Non-flammable. Material will not burn. Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** : None known.

**Specific hazards arising from the chemical** : No specific fire or explosion hazard. The substance will not burn. Undergoes thermal decomposition at elevated temperatures to release toxic and flammable gases.

**Hazardous thermal decomposition products** : Decomposition products may include the following materials:  
nitrogen oxides  
sulfur oxides

**Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

**Remark** : Contain and collect the water used to fight the fire for later treatment and disposal.

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Avoid breathing dust. Provide adequate ventilation. Put on appropriate personal protective equipment.
- For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

## Section 6. Accidental release measures

**Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused adverse impacts (sewers, waterways, soil or air). Will dissolve and disperse in water. Reclaiming material may not be possible. If possible, recover spilled product and place in suitable containers for recycle, reuse, or disposal. Product will promote algae growth and may degrade water quality and taste. Notify downstream water users.

### Methods and materials for containment and cleaning up

- Small spill** : Put on appropriate personal protective equipment (see Section 8). Move containers from spill area. Avoid dust generation. Use appropriate equipment to put the spilled substance in a container for reuse or disposal. Recycle, if possible.  
or  
Place spilled material in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Put on appropriate personal protective equipment (see Section 8). Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Avoid creating dusty conditions and prevent wind dispersal. Use appropriate equipment to put the spilled substance in a container for reuse or disposal. Recycle, if possible.  
or  
Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

### Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing dust.
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

**Conditions for safe storage, including any incompatibilities** : Store in accordance with local regulations. May form steep piles that can collapse without warning when stored in bulk. Avoid forming steep slopes when removing product. Ensure that bulk bags or smaller packaged products stored in tiers are stacked, racked, blocked, interlocked, or otherwise secured to prevent sliding, rolling, or collapse. Use caution when opening truck or railcar doors as product may have shifted during transport.

Must be stored in a dry location. Absorbs moisture on long-term storage under high humidity conditions. Store away from incompatible materials (see Section 10). When product is stored in sealable containers, keep container tightly closed and sealed until ready for use. Sealable containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers.

## Section 8. Exposure controls/personal protection

### Control parameters

#### Occupational exposure limits

## Section 8. Exposure controls/personal protection

Ingredient name	Exposure limits
<p><b>Canadian Regulations:</b>                      Ammonium nitrate or                      Ammonium sulfate or                      Ammonium dihydrogen orthophosphate or                      Calcium sulfate, dihydrate or                      Zinc bis(dihydrogen phosphate) or                      Zinc sulfate</p>	<p><b>CA Alberta Provincial:</b>                      Particulates not otherwise regulated (PNOR)                      TWA (8 hours), Total dust: 10 mg/m<sup>3</sup>;                      Respirable fraction: 3 mg/m<sup>3</sup>.</p>
<p>Zinc oxide</p>	<p><b>CA Alberta Provincial (Canada, 6/2008).</b>                      8 hrs OEL: 5 mg/m<sup>3</sup> 8 hours. Form: Fume                      15 min OEL: 10 mg/m<sup>3</sup> 15 minutes. Form: Fume  <b>CA Alberta Provincial (Canada, 4/2009).</b>                      8 hrs OEL: 2 mg/m<sup>3</sup> 8 hours. Form: Respirable                      15 min OEL: 10 mg/m<sup>3</sup> 15 minutes. Form: Respirable  <b>CA British Columbia Provincial (Canada, 4/2014).</b>                      TWA: 2 mg/m<sup>3</sup> 8 hours. Form: Respirable                      STEL: 10 mg/m<sup>3</sup> 15 minutes. Form: Respirable  <b>CA Ontario Provincial (Canada, 1/2013).</b>                      TWA: 2 mg/m<sup>3</sup> 8 hours. Form: Respirable fraction                      STEL: 10 mg/m<sup>3</sup> 15 minutes. Form: Respirable fraction  <b>CA Quebec Provincial (Canada, 1/2014).</b>                      TWAEV: 5 mg/m<sup>3</sup> 8 hours. Form: fume                      STEV: 10 mg/m<sup>3</sup> 15 minutes. Form: fume</p>
<p><b>U.S. Federal Regulations:</b>                      Ammonium sulfate</p>	<p><b>OSHA (United States):</b>                      Particulates not otherwise regulated (PNOR)                      TWA (8 hours), Total dust: 15 mg/m<sup>3</sup>;                      Respirable fraction: 5 mg/m<sup>3</sup>.</p>
<p>Ammonium dihydrogen orthophosphate</p>	<p><b>OSHA (United States):</b>                      Particulates not otherwise regulated (PNOR)                      TWA (8 hours), Total dust: 15 mg/m<sup>3</sup>;                      Respirable fraction: 5 mg/m<sup>3</sup>.</p>
<p>Calcium sulfate, dihydrate</p>	<p><b>ACGIH TLV-TWA:</b> 10 mg/m<sup>3</sup> Inhalable, 3 mg/m<sup>3</sup> Respirable, for Particles Not Otherwise Specified (Insoluble or Poorly Soluble).</p>
<p>Zinc sulfate</p>	<p><b>Fed OSHA PEL:</b> 15 mg/m<sup>3</sup> Total dust, 5 mg/m<sup>3</sup> Respirable fraction, for Particulates Not Otherwise Regulated.</p>
<p>Zinc oxide</p>	<p><b>OSHA (United States):</b>                      Particulates not otherwise regulated (PNOR)                      TWA (8 hours), Total dust: 15 mg/m<sup>3</sup>;                      Respirable fraction: 5 mg/m<sup>3</sup>.  <b>ACGIH TLV-TWA:</b> 2 mg/m<sup>3</sup> respirable fraction; TLV-STEL: 10 mg/m<sup>3</sup> respirable fraction, as particulate  <b>OSHA Permissible Exposure Limit: Table Z-1 8-hr Time Weighted Avg:</b> 15 mg/m<sup>3</sup> as total dust; 5 mg/m<sup>3</sup> respirable fraction</p>

## Section 8. Exposure controls/personal protection

- Appropriate engineering controls** : Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
- Individual protection measures**
- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If operating conditions cause high dust concentrations to be produced, use dust goggles.
- Skin protection**
- Hand protection** : The personal protective equipment required varies, depending upon your risk assessment. No special measures are typically indicated. For prolonged or repeated handling, use the following type of gloves: leather work gloves
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Cotton or cotton/synthetic overalls or coveralls are normally suitable.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. Contact your personal protective equipment manufacturer to verify the compatibility of the equipment for the intended purpose.

## Section 9. Physical and chemical properties

### Appearance

- Physical state** : Granular solid.
- Color** : Brown.
- Odor** : Odorless.
- Odor threshold** : Not applicable.
- pH** : 6 [Conc. (% w/w): 10%]
- Melting point** : Not available.
- Boiling point** : Decomposes.
- Flash point** : [Product does not sustain combustion.]
- Evaporation rate** : Not applicable.
- Flammability (solid, gas)** : Not applicable. The substance will not burn. Undergoes thermal decomposition at elevated temperatures to release toxic and flammable gases.
- Lower and upper explosive (flammable) limits** : Not applicable.
- Vapor pressure** : Not applicable.
- Vapor density** : Not applicable.
- Relative density** : Not available.
- Solubility** : Easily soluble in the following materials: hot water.  
Soluble in the following materials: cold water.

## Section 9. Physical and chemical properties

<b>Solubility in water</b>	: Water soluble.
<b>Partition coefficient: n-octanol/water</b>	: Not available.
<b>Auto-ignition temperature</b>	: Not applicable.
<b>Decomposition temperature</b>	: Not available.
<b>Viscosity</b>	: Not applicable.

## Section 10. Stability and reactivity

<b>Reactivity</b>	: Not considered to be reactive.
<b>Chemical stability</b>	: The product is stable.
<b>Possibility of hazardous reactions</b>	: Under normal conditions of storage and use, hazardous reactions will not occur.
<b>Conditions to avoid</b>	: No specific data.
<b>Incompatible materials</b>	: Incompatible with halogens. A mixture of salts. May be corrosive to metals. Contact your sales representative or a metallurgical specialist to ensure compatibility with your equipment.
<b>Hazardous decomposition products</b>	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Ammonium sulfate	LD50 Oral	Mouse - Male, Female	3040 mg/kg	-
	LD50 Oral	Rat	2840 mg/kg	-
	LD50 Oral	Rat - Male, Female	>2000 mg/kg	-
ammonium dihydrogenorthophosphate	LD50 Oral	Rat - Male, Female	>2000 mg/kg	-
Ammonium nitrate	LD50 Oral	Rat	2217 mg/kg	-
	LD50 Oral	Rat - Male, Female	2950 mg/kg	-
Zinc bis(dihydrogen phosphate)	LD50 Oral	Rat	1990 mg/kg	-
Zinc sulfate	LD50 Oral	Mouse	245 mg/kg	-
	LD50 Oral	Mouse - Male	926 mg/kg	-

**Conclusion/Summary** : Very low toxicity to humans or animals. No known significant effects or critical hazards.

#### Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
Ammonium sulfate	Skin	Rabbit	0	20 hours	24 hours
	Eyes	Rabbit	0	-	72 hours
Zinc oxide	Eyes	Rabbit	0	24 hours 500 milligrams	-
	Skin	Rabbit	0	24 hours 500 milligrams	-
Ammonium nitrate	Skin	Rabbit	0	-	72 hours
	Eyes - Edema of the	Rabbit	3	-	3 days

## Section 11. Toxicological information

Zinc sulfate	conjunctivae Eyes - Moderate irritant	Rabbit	2	420 Micrograms	-
--------------	--	--------	---	-------------------	---

### Conclusion/Summary

- Skin** : No known significant effects or critical hazards.  
**Eyes** : Irritating to the eyes.  
**Respiratory** : No known significant effects or critical hazards.

### Sensitization

Product/ingredient name	Route of exposure	Species	Result
Ammonium sulfate	skin	Guinea pig	Not sensitizing
Ammonium nitrate	skin	Mouse	Not sensitizing

### Conclusion/Summary

- Skin** : Non-sensitizer.  
**Respiratory** : No known significant effects or critical hazards.

### Mutagenicity

Product/ingredient name	Test	Experiment	Result
Ammonium sulfate	OECD 476	Experiment: In vitro Subject: Mammalian-Animal Cell: Somatic	Negative
	OECD 473	Experiment: In vitro Subject: Mammalian-Animal Cell: Germ	Negative
Ammonium nitrate	OECD 471 Bacterial Reverse Mutation Test	Experiment: In vitro Subject: Bacteria	Negative
	OECD 476 <i>In vitro</i> Mammalian Cell Gene Mutation Test	Experiment: In vitro Subject: Mammalian-Animal	Negative

**Conclusion/Summary** : No known significant effects or critical hazards.

### Carcinogenicity

Product/ingredient name	Result	Species	Dose	Exposure
Ammonium sulfate	Negative - Oral - TCLo	Rat - Male, Female	1288 mg/kg	2 years; 7 days per week

**Conclusion/Summary** : Potential for nitrosamine formation if ingested. Do not ingest.

### Reproductive toxicity

Product/ingredient name	Maternal toxicity	Fertility	Development toxin	Species	Dose	Exposure
Ammonium sulfate	Negative	Negative	-	Mouse - Male, Female	Oral: 5000 mg/ kg	-

**Conclusion/Summary** : No known significant effects or critical hazards.

### Teratogenicity

Product/ingredient name	Result	Species	Dose	Exposure
Ammonium sulfate	Negative - Oral	Rat - Male, Female	1500 mg/kg	-

**Conclusion/Summary** : No known significant effects or critical hazards.

### Specific target organ toxicity (single exposure)

Not available.

### Specific target organ toxicity (repeated exposure)

Not available.

## Section 11. Toxicological information

### Aspiration hazard

Not available.

**Information on the likely routes of exposure** : Inhalation  
Skin contact

### Potential acute health effects

**Eye contact** : Causes eye irritation.

**Inhalation** : Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.

**Skin contact** : Inorganic salt. Prolonged or repeated exposure may dry the skin, causing irritation.

**Ingestion** : May cause irritation of the digestive tract with accompanying nausea, vomiting and diarrhea.

### Symptoms related to the physical, chemical and toxicological characteristics

**Eye contact** : Adverse symptoms may include the following:  
irritation  
watering  
redness

**Inhalation** : Adverse symptoms may include the following:  
respiratory tract irritation  
coughing

**Skin contact** : No specific data.

**Ingestion** : No specific data. Adverse symptoms may include the following:  
nausea or vomiting  
diarrhea

### Delayed and immediate effects and also chronic effects from short and long term exposure

#### Short term exposure

**Potential immediate effects** : May interfere with the oxygen carrying capacity of the blood if ingested in large quantities or over a prolonged period of time. Persons with anemia, bowel diseases, or infants, are more likely to develop effects. Over-exposure by ingestion is unlikely under normal working conditions.

**Potential delayed effects** : See above.

#### Long term exposure

**Potential immediate effects** : See above.

**Potential delayed effects** : See below.

#### Potential chronic health effects

**Conclusion/Summary** : No known significant effects or critical hazards.

**General** : Potential for nitrosamine formation if ingested. Do not ingest. Methemoglobinemia (see Acute Health Effects)

**Carcinogenicity** : No known significant effects or critical hazards.

**Mutagenicity** : No known significant effects or critical hazards.

**Teratogenicity** : No known significant effects or critical hazards.

**Developmental effects** : No known significant effects or critical hazards.

**Fertility effects** : No known significant effects or critical hazards.

## Section 12. Ecological information

### Toxicity

Product/ingredient name	Result	Species	Exposure
Ammonium sulfate	Acute LC50 2.6 mg/l Fresh water	Crustaceans - Ceriodaphnia dubia - Young	48 hours
	Acute LC50 14000 µg/l Fresh water	Daphnia - Daphnia magna - Young	48 hours
	Acute LC50 68 µg/l Fresh water	Fish - Oncorhynchus gorboscha - Alevin	96 hours
Zinc oxide	Acute LC50 53 mg/l	Fish - Oncorhynchus mykiss	96 hours
	Acute EC50 0.042 mg/l Fresh water	Algae - Pseudokirchneriella subcapitata - Exponential growth phase	72 hours
	Acute LC50 98 µg/l Fresh water	Daphnia - Daphnia magna - Neonate	48 hours
Ammonium nitrate	Acute LC50 1.1 ppm Fresh water	Fish - Oncorhynchus mykiss	96 hours
Zinc sulfate	Chronic NOEC 6 to 12 mg/l Fresh water	Crustaceans - Cladocera	21 days
	Acute EC50 0.042 mg/l Fresh water	Algae - Pseudokirchneriella subcapitata - Exponential growth phase	72 hours
	Acute LC50 4 µg/l Fresh water	Crustaceans - Mesocyclops hyalinus - Adult	48 hours
	Acute LC50 21.8 µg/l Fresh water	Daphnia - Daphnia magna - Neonate	48 hours
	Acute LC50 2.36 µg/l Fresh water	Fish - Cirrhinus mrigala	96 hours

**Conclusion/Summary** : Excessive nutrient runoff to a body of water may result in eutrophication. Harmful to aquatic life with long lasting effects. May be harmful to the environment if released in large quantities.

### Persistence and degradability

**Conclusion/Summary** : Persistent in the environment.

### Bioaccumulative potential

Product/ingredient name	LogP <sub>ow</sub>	BCF	Potential
zinc oxide	-	60960	high
Zinc bis(dihydrogen phosphate)	-	60960	high
Zinc sulfate	-0.07	60960	high

### Mobility in soil

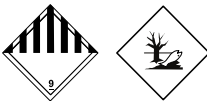

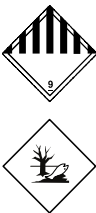

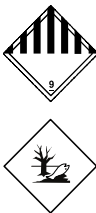

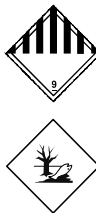

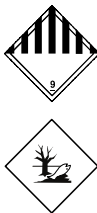

**Soil/water partition coefficient (K<sub>oc</sub>)** : Not available.

**Other adverse effects** : No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

	<b>TDG Classification</b>	<b>DOT Classification</b>	<b>Mexico Classification</b>	<b>IMDG</b>	<b>IATA</b>

## Section 14. Transport information

**Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transport in bulk according to Annex II of MARPOL and the IBC Code** : Not available.

## Section 15. Regulatory information

### Canadian lists

**Canadian NPRI** : The following components are listed: Ammonia (total); Ammonia (total); Zinc (and its compounds); Ammonia (total); Zinc (and its compounds); Zinc (and its compounds)

**CEPA Toxic substances** : None of the components are listed.

**Canada inventory** : All components are listed or exempted.

### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### Montreal Protocol

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

#### UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

### Inventory list

**Australia** : All components are listed or exempted.

**China** : All components are listed or exempted.

**Europe** : All components are listed or exempted.

**Japan** : **Japan inventory (ENCS):** All components are listed or exempted.  
**Japan inventory (ISHL):** Not determined.

**Malaysia** : Not determined.

**New Zealand** : All components are listed or exempted.

**Philippines** : All components are listed or exempted.

**Republic of Korea** : All components are listed or exempted.

**Taiwan** : All components are listed or exempted.

**Turkey** : Not determined.

**U.S. Federal Regulations:** : **TSCA 8(a) CDR Exempt/Partial exemption:** Not determined  
**TSCA 8(b) Active inventory::** All components are listed or exempted.  
**Clean Water Act (CWA) 307:** zinc oxide; zinc bis(dihydrogen phosphate); zinc sulfate (anhydrous)  
**Clean Water Act (CWA) 311:** zinc sulfate (anhydrous)

**Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs)** : Not listed

**Clean Air Act Section 602 Class I Substances** : Not listed

## Section 15. Regulatory information

**Clean Air Act Section 602 Class II Substances** : Not listed

**DEA List I Chemicals (Precursor Chemicals)** : Not listed

**DEA List II Chemicals (Essential Chemicals)** : Not listed

**SARA 302/304 Composition/information on ingredients**

**SARA 304 RQ** : Not applicable.

**SARA 311/312**

**Classification** : Immediate (acute) health hazard

**Composition/information on ingredients**

Name	%	Fire hazard	Sudden release of pressure	Reactive	Immediate (acute) health hazard	Delayed (chronic) health hazard.
Zinc sulfate	1.2 - 1.6	No.	No.	No.	Yes.	No.

**SARA 313**

	Product name	CAS number	%
<b>Form R - Reporting requirements</b>	Ammonium sulfate	7783-20-2	63 - 74
	Ammonium dihydrogen orthophosphate	7722-76-1	14
	Zinc oxide	1314-13-2	1.25 - 3
	Zinc sulfate	7733-02-0	< 2
<b>Supplier notification</b>	Ammonium sulfate	7783-20-2	63 - 74
	Ammonium dihydrogen orthophosphate	7722-76-1	14
	Zinc oxide	1314-13-2	1.25 - 3
	Zinc sulfate (anhydrous)	7733-02-0	< 2

SARA 313 notifications must not be detached from the SDS and any copying and redistribution of the SDS shall include copying and redistribution of the notice attached to copies of the SDS subsequently redistributed.

**State regulations**

**Massachusetts** : The following components are listed: Ammonium sulfate; Zinc oxide fume; Zinc sulfate

**New York** : The following components are listed: Zinc sulfate

**New Jersey** : The following components are listed: Zinc oxide; Zinc sulfate; Sulfuric acid, zinc salt

**Pennsylvania** : The following components are listed: Sulfuric acid diammonium salt; Zinc oxide; Sulfuric acid, zinc salt (1:1)

**California Prop. 65** : Not applicable – This product is not registered for sale into the State of California and has not been evaluated for Prop 65 notification requirements.

## Section 16. Other information

**History**

**Date of issue/Date of revision** : 3/15/2022

**Date of previous issue** : 5/6/2019

**Version** : 1.3

✔ Indicates information that has changed from previously issued version.

## Section 16. Other information

### Key to abbreviations

- : ATE = Acute Toxicity Estimate
- BCF = Bioconcentration Factor
- GHS = Globally Harmonized System of Classification and Labelling of Chemicals
- IATA = International Air Transport Association
- IBC = Intermediate Bulk Container
- IMDG = International Maritime Dangerous Goods
- LogPow = logarithm of the octanol/water partition coefficient
- MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)
- UN = United Nations
- HPR = Hazardous Products Regulations

### Procedure used to derive the classification

Classification	Justification
EYE IRRITATION - Category 2B	Weight of evidence

### Notice to reader

## Section 16. Other information

### DISCLAIMER AND LIMITATION OF LIABILITY

The information and recommendations contained in this Safety Data Sheet ("SDS") relate only to the specific material referred to herein (the "Material") and do not relate to the use of such Material in combination with any other material or process. The information and recommendations contained herein are believed to be current and correct as of the date of this SDS. HOWEVER, THE INFORMATION AND RECOMMENDATIONS ARE PRESENTED WITHOUT WARRANTY, REPRESENTATION OR LICENSE OF ANY KIND, EXPRESS OR IMPLIED, WITH RESPECT TO THEIR ACCURACY, CORRECTNESS OR COMPLETENESS, AND THE SELLER, SUPPLIER AND MANUFACTURER OF THE MATERIAL AND THEIR RESPECTIVE AFFILIATES (COLLECTIVELY, THE "SUPPLIER") DISCLAIM ALL LIABILITY FOR RELIANCE ON SUCH INFORMATION AND RECOMMENDATIONS. This SDS is not a guarantee of safety. A buyer or user of the Material (a "Recipient") is responsible for ensuring that it has all current information necessary to safely use the Material for its specific purpose.

FURTHERMORE, THE RECIPIENT ASSUMES ALL RISK IN CONNECTION WITH THE USE OF THE MATERIAL. THE RECIPIENT ASSUMES ALL RESPONSIBILITY FOR ENSURING THE MATERIAL IS USED IN A SAFE MANNER IN COMPLIANCE WITH APPLICABLE ENVIRONMENTAL, HEALTH, SAFETY AND SECURITY LAWS, POLICIES AND GUIDELINES. THE SUPPLIER DOES NOT WARRANT THE MERCHANTABILITY OF THE MATERIAL OR THE FITNESS OF THE MATERIAL FOR ANY PARTICULAR USE AND ASSUMES NO RESPONSIBILITY FOR INJURY OR DAMAGE CAUSED DIRECTLY OR INDIRECTLY BY OR RELATED TO THE USE OF THE MATERIAL.
